

# TaskWA — Command Card

pin me in the group

## ADMIN — works only when you DM the bot directly

|                                                                                                            |                                                                                                                                                                                                                                                                                                                                                                                                                           |
|------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>/nudge 07:30 tue</b><br><b>@Ravi.Shankar</b><br><b>#"Group 1" What is the status?</b><br><b>/nudges</b> | <b>Nudger</b> — a plain message the bot sends for you, on a schedule. Time first (24h, required), then days (mon,wed or 'daily' or omit = every day), then who (@members / #groups), then the message — sent word for word. Reply Y to confirm. <b>/nudges</b> lists them all, numbered; then <b>/nudge 3 08:15 thu</b> reschedules, <b>/nudge off 3</b> · <b>on 3</b> pauses/resumes, <b>/nudge delete 3</b> removes it. |
| <b>/adduser 971501234567 Ravi Shankar</b><br><b>/members</b>                                               | Register a teammate from your phone — check the number in the Y/N prompt, a typo would register a stranger. Always joins as a member; promoting to admin stays on the dashboard. <b>/members</b> lists everyone with their roles.                                                                                                                                                                                         |

## EVERYONE — the task commands

|                                                                                        |                                                                                                                                                                                                                                                                                     |
|----------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>/add Fix pump @Ravi #group fri</b><br><b>!high</b>                                  | New task for Ravi, due Friday, high priority; #group also posts + announces it in that group. Reply Y to confirm — Ravi is then asked to accept it.                                                                                                                                 |
| <b>/mytasks</b>                                                                        | Your open tasks, any time.                                                                                                                                                                                                                                                          |
| <b>/list</b>                                                                           | Every open task you're allowed to see.                                                                                                                                                                                                                                              |
| <b>/myadd</b>                                                                          | Open tasks you created for others — with status and blocks.                                                                                                                                                                                                                         |
| <b>/help</b>                                                                           | The full command list (admins DM'ing the bot also get the admin set).                                                                                                                                                                                                               |
| <b>@Ravi.Shankar</b><br><b>@"Ravi Shankar"</b><br><b>#Group.1</b><br><b>#"Group 1"</b> | A name or a group with a space in it: <b>dot it, or quote it</b> — curly quotes from your phone are fine. Names and groups follow the same rule. @Ravi or #group on their own are fine when they match only one person / one group; if two match, the bot asks instead of guessing. |
| <b>1 done</b>                                                                          | Task 1 finished. You'll get a thumbs-up.                                                                                                                                                                                                                                            |
| <b>1 in progress</b>                                                                   | You've started task 1.                                                                                                                                                                                                                                                              |
| <b>1 block reason</b>                                                                  | You're stuck — say why. The admin is alerted at once.                                                                                                                                                                                                                               |
| <b>1 block waiting on</b><br><b>@Ravi.Shankar</b>                                      | Hand the block to Ravi — he's asked to release it when his part is done.                                                                                                                                                                                                            |
| <b>1 unblock</b>                                                                       | A block waits on YOU? This releases it and hands the task back to its owner.                                                                                                                                                                                                        |
| <b>1 reopen</b>                                                                        | Undo a mistaken 'done'.                                                                                                                                                                                                                                                             |
| <b>1 cancel reason</b>                                                                 | Cancel a task YOU created (or you're admin). The assignee is told it's off their list.                                                                                                                                                                                              |
| <b>done</b>                                                                            | No number needed if you have just one task — or swipe-reply on the task's message.                                                                                                                                                                                                  |
| <b>Y / N</b>                                                                           | Got a 'New task from ...'? Y accepts, N sends it back to its creator. Silence for 30 min = accepted.                                                                                                                                                                                |

Dates for /add: today · tomorrow · mon...sun · 25/07 — Priorities: !high · !low — Only you (or an admin) can close your tasks.
